Happy December!

As the year winds down, there's much to celebrate this season. December can be a bustling month with holiday gatherings, traveling to visit with loved ones, and shopping for last-minute gifts. However, we hope you find time to enjoy the true reason for the season.

It's inevitable that spending spikes during this time of year and often the season's distractions create an increased risk of identity theft. We caution you to set up alerts for your bank and credit card accounts when activity occurs, double check those URLs when shopping online, and try to avoid using public WI-FI that is less secure when making purchases or viewing your bank accounts. We want you to be safe financially this holiday season and beyond.

As we enter this final month of 2024, you're likely reviewing your finances from this past year. If you would like a second opinion, please reach out and schedule a meeting. We enjoy helping our community feel more confident about their financial journey.

Wishing you a blessed and joyful holiday season!
